http://www.aavmc.org

As of January, 2017
The membership of the Association of American Veterinary Medical Colleges is pleased to present the AAVMC Annual Data Report 2016-2017. This report includes data concerning veterinary school faculty, students and applicants and represents the most frequently requested data from the AAVMC.

This report includes, but is not limited to, a collection of data compiled through an internal members-only survey conducted each fall. The 30 colleges and schools of veterinary medicine in the United States, 5 Canadian colleges, and 14 international institutions were surveyed. A final report is distributed exclusively to participating members of the AAVMC in December. The Annual Data Report features data on faculty, staff, residents, interns and students from the all participating members of the AAVMC.

AAVMC Internal Reports
2017

Underrepresented in Veterinary Medicine (URVM) is defined as populations of individuals whose advancement in the veterinary medical profession has historically been disproportionately impacted by six specific aspects of diversity (gender, race, ethnicity, geographic, socioeconomic, and educational disadvantage) due to legal, cultural, or social climate impediments.

Students who are of Asian descent are considered underrepresented in the veterinary medical profession and are included in the calculations for this bar graph.
