

Projected Population Growth vs. 1st Year Veterinary Student Numbers

2000 (Actual)

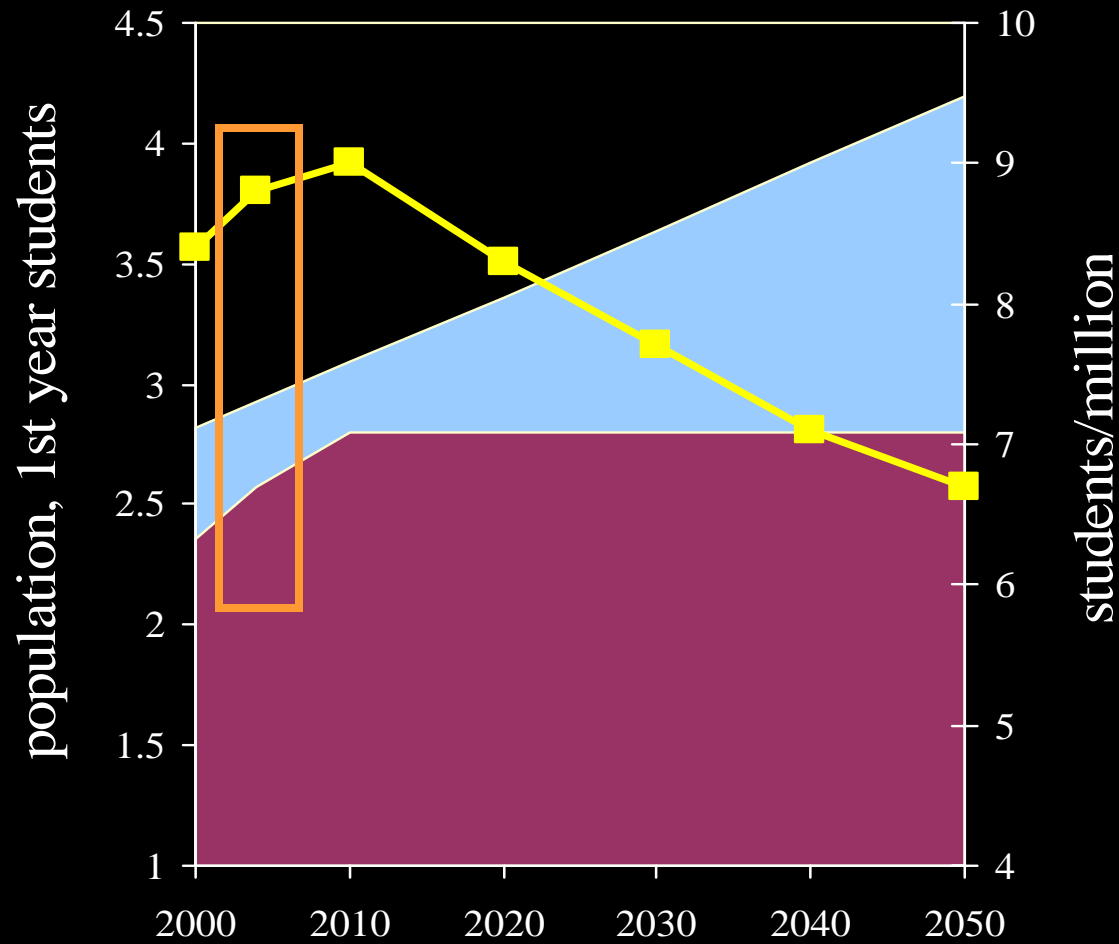

8.4 students per million

**Population:
282,125,000**

**2,361
1st Year Students**

2004 (Actual)

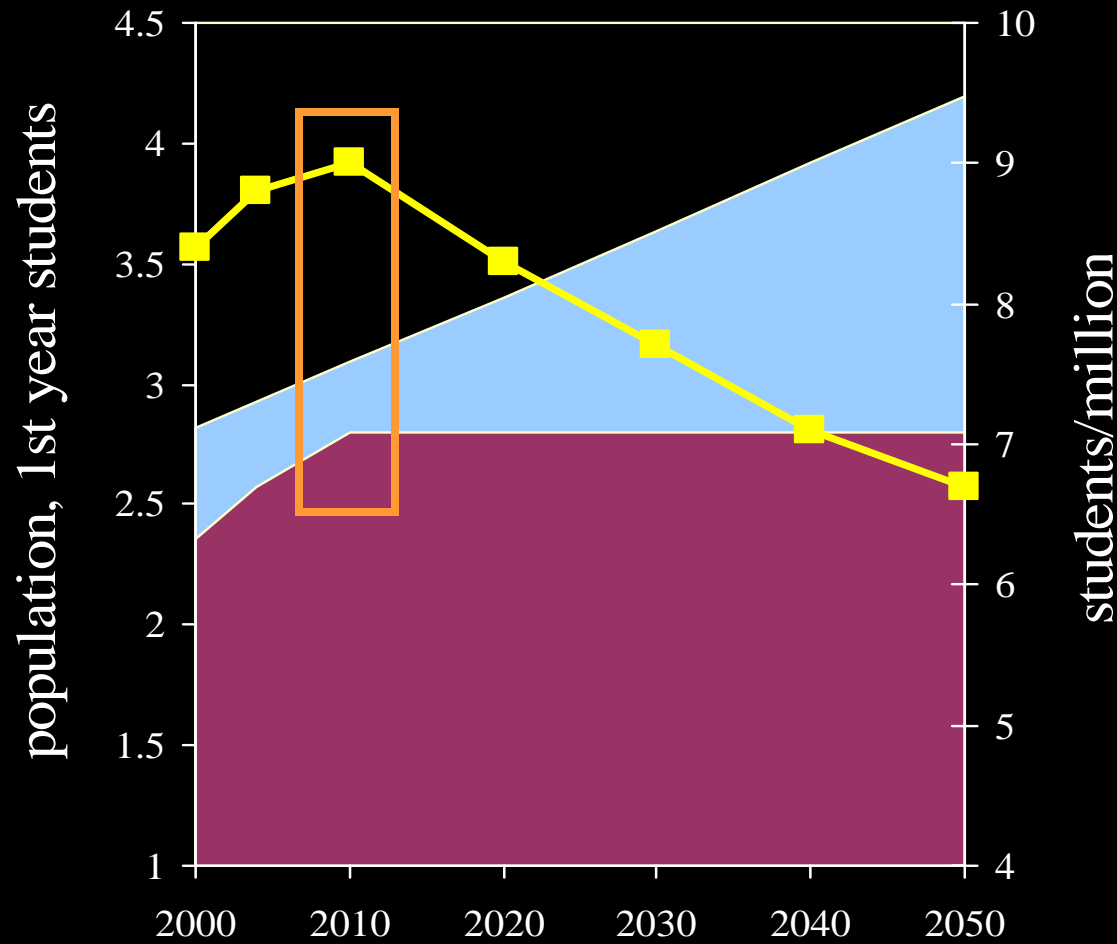

8.8 students per million

*Population:
293,000,000*

*2,573
1st Year Students*

2010 (Projection)

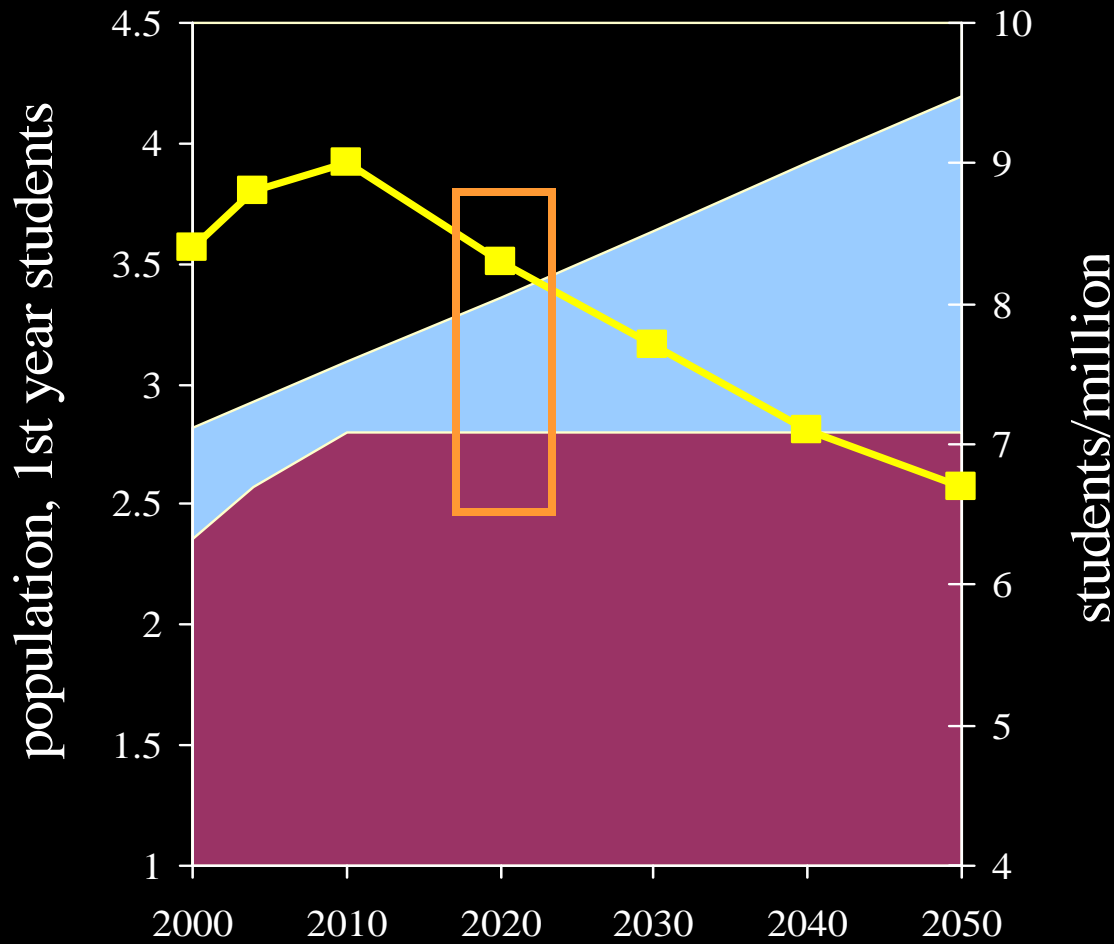

9.0 students per million

*Population:
308,936,000*

*2,814
1st Year Students*

241 New Students
Realized
via Legislative
Initiative

2020 (Projection)

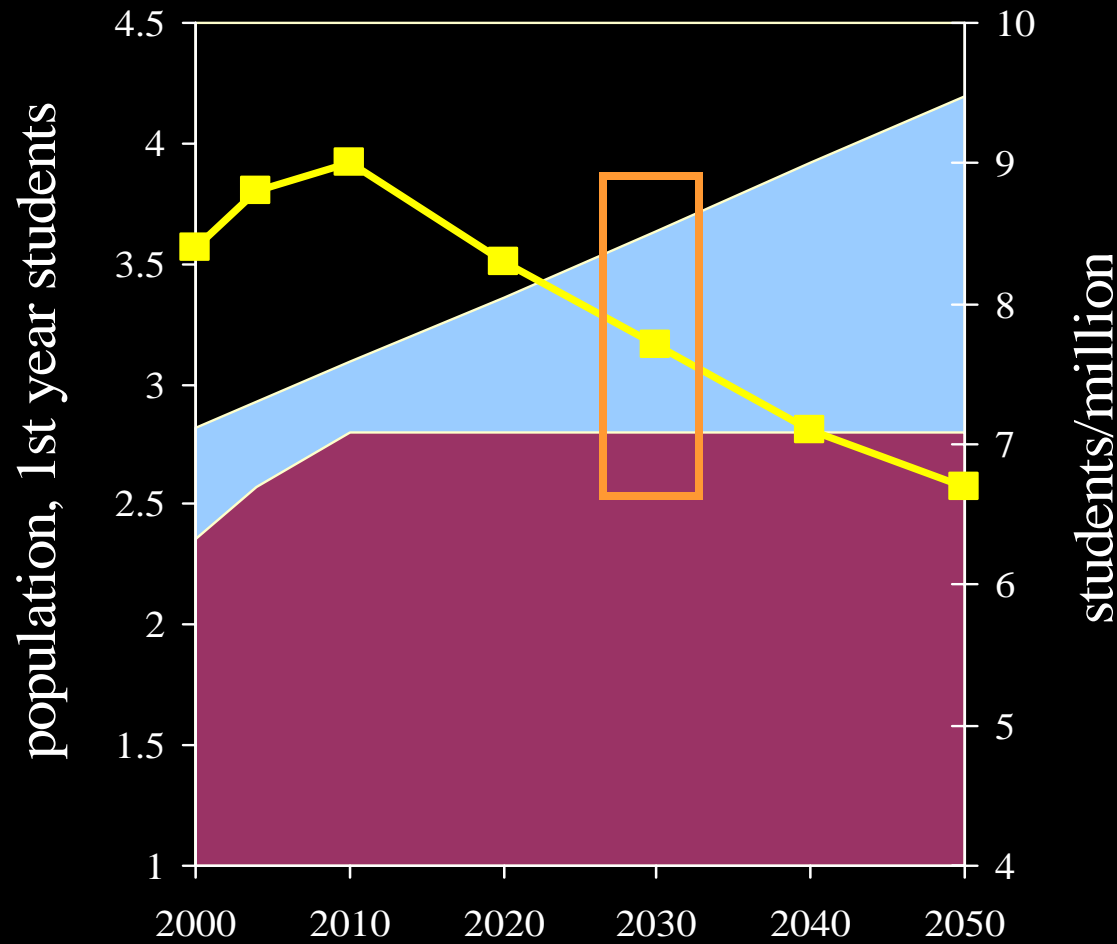

8.3 students per million

**Population:
335,805,000**

**2,814
1st Year Students**

Must add 208 more students to realize 9.0 students per million

2030 (Projection)

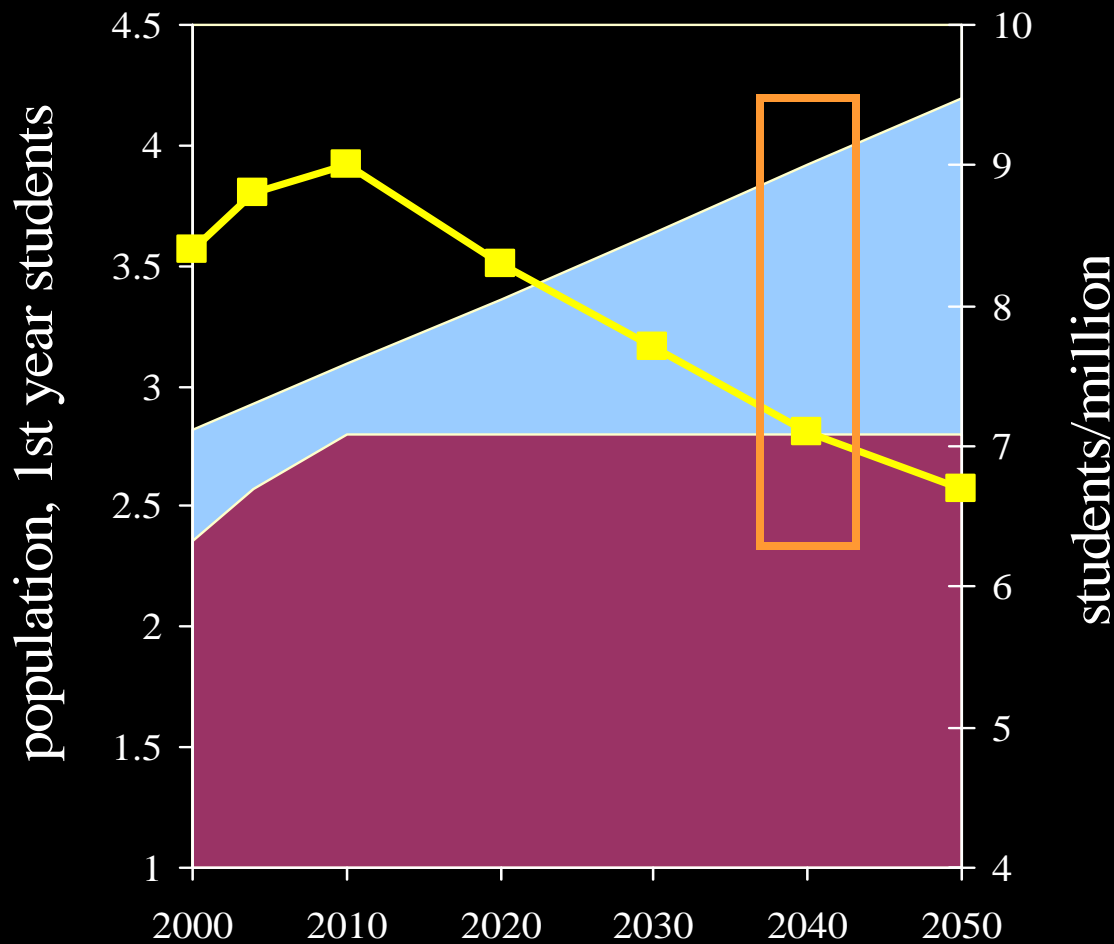

7.7 students per million

*Population:
363,584,000*

2,814
1st Year Students

Must add **458 more students** to realize 9.0 students per million

2040 (Projection)

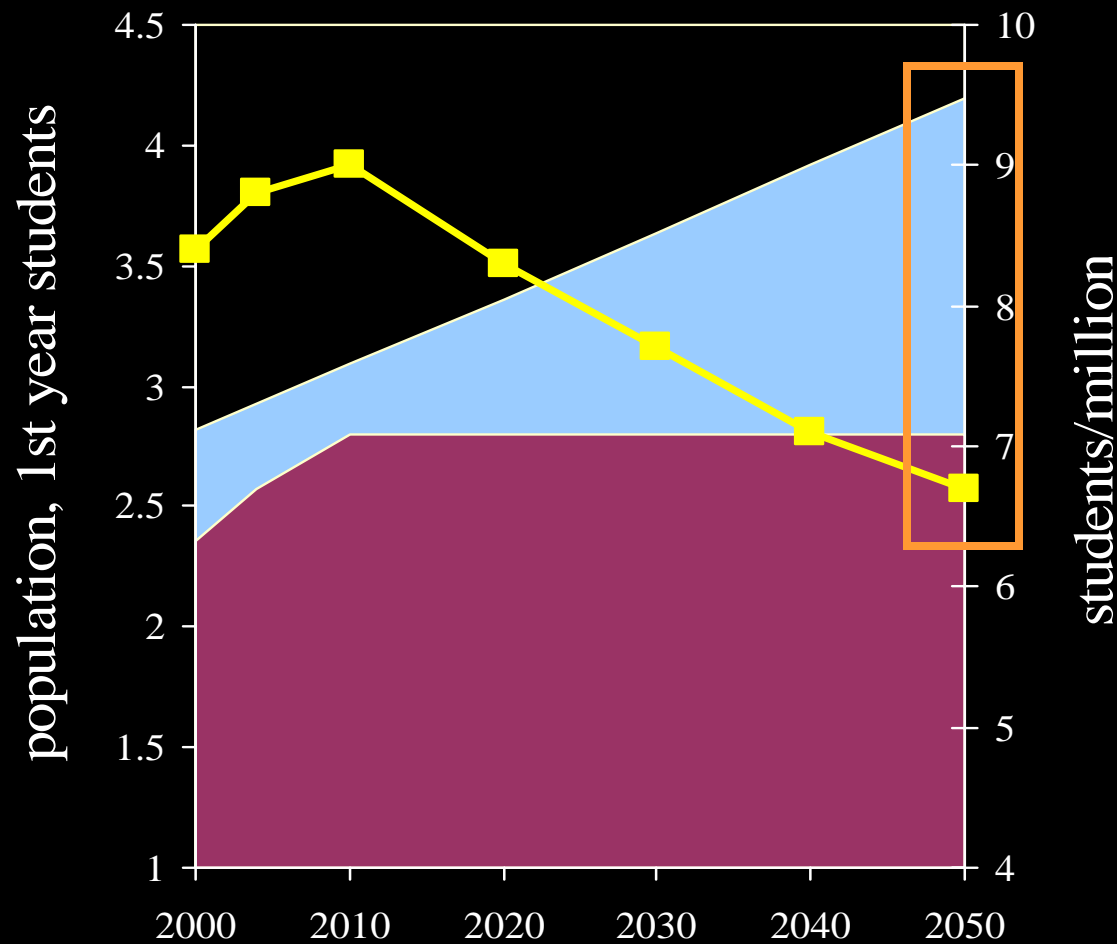

7.1 students per million

*Population:
391,946,000*

2,814
1st Year Students

Must add **714 more students** to realize 9.0 students per million

2050 (Projection)

6.7 students per million

Population:
419,854,000

2,814
1st Year Students

Must add **965 more students** to realize
9.0 students per million
