

COLLEGE OF VETERINARY MEDICINE

OREGON STATE UNIVERSITY

Oregon State University is located in Corvallis, Oregon, two hours south of Portland. The college's professional program began in 1979. The Oregon State Legislature has passed a bill providing funding for us to conduct our four-year DVM program entirely in Oregon. The class of 2007 will be the first to obtain their entire professional education in Corvallis. We plan to continue and expand our unique partnerships in Portland, the Willamette Valley, and throughout the region and nation to provide the very best practical experience for our students.

CURRICULUM: The curriculum consists of three years of lecture/laboratory courses incorporating case-based and traditional learning techniques. The fourth-year (clinical) students, after completing required instruction in medicine, surgery, rural veterinary practice and clinical support services, may design an individual curriculum consisting of intensive courses in various specialties. Student education is enhanced by the small class size, excellent student to faculty ratio, and outstanding opportunities for "hands-on" clinical experience.

ADMISSION PROCESS: All applicants must apply through VMCAS. We recommend delivering your electronic application to VMCAS at least one week before the listed deadline. Your recommendation letters should also be submitted to VMCAS early. Completed applications are reviewed by our admissions committee. In general, interviews are a required part of the process and will be conducted in March. The college may waive the interview process for WICHE and non-resident applicants. The deadline for receipt of all transcripts is November 30th. Fall transcripts are due by February 1.

SIZE OF ENTERING CLASS: 48

DEADLINE DATE: The VMCAS application must be postmarked no later than November 1.

CLASSES BEGIN: late September

SUPPLEMENTAL PROCESSING FEE: A supplemental fee may be assessed. You will be contacted by the college after VMCAS processes your application.

ADMISSION DEPOSIT : A deposit of \$50 is required to hold a position in the class.

TUITION AND FEES: 2001-2002 \$11,580 resident and contract state residents; \$22,395 non-resident (subject to change for 2002-2003)

ENTRANCE REQUIREMENTS: Oregon State University College of Veterinary Medicine has 40 positions for Oregon residents and will accept eight WICHE certified or non-residents for a total class size of 48. Scores from the Graduate Record Exam (GRE[®]) General Test are required, and the test should be taken no later than November 30, 2002. Veterinary medical and/or animal experience is required.

Pre-requisite courses for entrance into the college must include:

Chemistry	Course sequences of inorganic chemistry with laboratories, a course or course sequence in organic chemistry. One upper-division biochemistry course or course sequence
Zoology or biology	A one-year sequence plus at least six additional quarter (4 semester) units of upper division biological science courses with at least one laboratory (physiology, cell biology, microbiology or additional biochemistry).
Genetics	One semester or quarter of an upper division course
Physics	One semester or two quarters of college-level physics for science majors
Mathematics	Sufficient to meet the pre-requisites for inorganic chemistry and physics
