Introduction

- The membership of the Association of American Veterinary Medical Colleges is pleased to present the AAVMC Annual Data Report 2015-2016. This report includes data concerning veterinary school faculty, students and applicants and represents the most frequently requested data from the AAVMC.
- This report includes, but is not limited to, a collection of data compiled through an internal members-only survey conducted each fall. The 30 colleges and schools of veterinary medicine in the United States, 5 Canadian colleges, and 14 international institutions were surveyed. A final report is distributed exclusively to participating members of the AAVMC in December. The Annual Data Report features data on faculty, students from the 30 colleges and schools in the United States. Several data presentations include data from reporting international members.
