

## Join the Veterinary Medicine Caucus

This bi-partisan caucus was recently created by Rep. Ted Yoho (R-FL) and Rep. Kurt Schrader (D-OR). Both are licensed veterinarians, and have created the caucus to educate members and staff on the importance of veterinary medicine to research, public health, animal health and welfare, food safety, and our overall economy. The caucus will also keep members informed about the opportunities and challenges facing veterinary medicine.

To join the caucus, please contact:
