The membership of the American Association of Veterinary Medical Colleges is pleased to present the *2022-2023 AAVMC Annual Data Report*. The report includes data concerning veterinary school applicants, students, faculty and tuition. It represents the most frequently requested data from the AAVMC.

This report includes a collection of data compiled through an internal members-only survey conducted each fall. The 33 colleges and schools of veterinary medicine in the United States, 5 Canadian colleges, and the 11 international institutions were surveyed. The report also includes summary data from the VMCAS application service as well as data from a recent survey of veterinary school applicants.

**There are six sections to this report:**

DVM Student Enrollment

DVM Student Diversity

Applicant Data

Tuition & Debt

College Budget

Academic Personnel

## First Year & Graduating Classes at U.S. Colleges of Veterinary Medicine Internal AAVMC Data Reports 1980-2023

Although the relationship between first year seats and graduation is expected to be a direct one, there are numerous reasons that explain perceived lags in graduation of DVM students. Numerous dual-degree options allow DVM students to step in and out of the professional curriculum.

# Total U.S. Citizen Graduates from all AAVMC Member Institutions Internal AAVMC Data Reports 2015-2022

Data set includes all graduates who are U.S. citizens graduating from an American or International AAVMC member institution.

2019 data may include an overcount of U.S. graduates from International Institutions.

## First Year Enrollment by Residency Status at U.S. Colleges of Veterinary Medicine Internal AAVMC Data Reports 2023

This visualization depicts enrollment by residency status for first year DVM students. Several U.S. Colleges of Veterinary Medicine allow DVM students to establish residency during the first year of matriculation; the change in residency status allows these students to pay resident tuition during their remaining three years in the professional program.

by U.S. College of Veterinary Medicine  
Internal AAVMC Data Reports  
2023

There are currently 492 DVM students enrolled in dual degree programs in the United States. There are 79 veterinary students also enrolled in MS/MA programs; while there are 254 students who are also earning an MPH program. Finally, 159 veterinary students are also enrolled in PhD programs across the U.S.

## Historical Applicant Trend Internal AAVMC Data Reports 1980-2022

## Applicants to First Year Available Seats Internal AAVMC Data Reports 2010-2022

Total available seats include *all first year seats* at AAVMC member institutions. First year seats at International AAVMC member institutions are based on historical enrollment trends of U.S. citizens and institutional target enrollment figures.

# Class of 2026 Applicant to First Year Seat Ratio at U.S. College of Veterinary Medicine Internal AAVMC Data Reports 2023

The dramatic differences by institution are attributed to the number of seats offered and that institution's applicant pool. On average, applicants apply to 4-5 colleges of veterinary medicine per cycle. The national applicant to first year seat ratio, which is 2.3, is calculated using the number of unique applicants in the pool, by the total number of seats offered across institutions. University of Arizona did not report data.
